Smits P.: Cardiovascular effects of sulphonylurea derivatives S160

Contents of Suppl 3 to Volume 40

Introduction B1

Denton R.M., Kahn C.R., Harbeck M., Heesom K.I.: Insulin action on metabolism B3

Foley J., O'Doherty R., Stein D.: Insulin resistance B10

Lane M.D., Loftus T., Maggs D.: The adipose tissue/central nervous system axis B16

McGarry J.D., Weir G., Björklund A., Yaney G.: Fatty acids and beta-cell function B21

Bonner-Weir S., Neilsen J.H., Corbett J., Serup P.: Beta-cell ontogeny: growth and death B27

Halban P., Polonsky K., Regazzi R., Verchere C.B.: Insulin production: from gene to granule B33

Brownlee M., Colton C., Ferber S., Heimberg H.: Surrogate beta cells B39

- Barker C.F., Lafferty K.J., Desai N.M., Korbitt G.S.: Beta-cell replacement B 44
- Harrison L., Rabinovitch A., Noor-chashm H., Kwok W.: Immunology of IDDM B 50
- Nerup J., Rossini A., Honeyman M., Wasserfall C.: Prediction and prevention of IDDM B 58
- Czernichow P., Marchese R., Newfield R., Polak M.: Epidemiology and genetics of diabetic complications B 62
- Czernichow P., Marchese R., Fioretto P., Newfield R.S., Polak M.: Pathophysiology of diabetic complications B 65
- Czernichow P., Drummond K., Bilous R., Fioretto P.: Growth factors and diabetic nephropathy: kidney structure and therapeutic interventions B 68
- Sima A., Williamson J., Feener E., Pu S.-F.: Diabetic neuropathies B 74

- Alberti K.G.M.M., King G., Caprio S., Wong S.: Cardiovascular complications of diabetes B 78
- Cryer P., Sherwin R., Baker D., Evans M.: Hypoglycaemia and glucose sensing B 83
- Berger M., Binder C., Johannesen J., Petersen K.F.: New insulins and other possible therapeutic approaches B 89
